

# State of the Nation: Invincible Germany only possible through Cosmic Constitution

## Important Press Conference in Berlin held by Emanuel Schiffgens

(I-NewsWire) October 18, 2005 - Berlin - Because the election to the federal parliament has divided Germany and inner and outer peace are threatened, Emanuel Schiffgens declared in his Berlin Press Conference on the State of the Nation the necessity for a Cosmic Constitution for Germany.

According to his words, the current basic law put together by men is not sufficient to create an integrated collective consciousness in Germany. The reason is simply the basic inefficiency of man to satisfy the desires of everyone.

Only the intelligence of Natural Law is in a position to govern the infinite diversity of the ever expanding galactic universe without mistake and without problem. That intelligence can be found in what modern quantum physics understands as the constitution of the universe, the unified field of all the laws of nature, the field of self-referral consciousness, which guides the total evolution of the cosmos without making a mistake.

This field of pure creative intelligence has to be enlivened in the collective consciousness to safeguard inner and outer peace and a good fortune for every single

citizens. Only on the level of the Unified Field we can find that intelligence, which will make us invincible and everyone happy and completely fulfilled, Schiffgens explained.

The best way to create an integrated global consciousness will be the training of hundreds of thousands of experts worldwide, whose duty it will be, to enliven the Constitution of the Universe in world consciousness through meditation and Yogic Flying and put an armour of invincibility around the globe, to secure permanent world peace. All other attempts to secure peace are destined to fail, especially the military attempts which are miles away from the intelligence of Natural Law.

Germany should immediately partake in the building up of such peace creating groups to put an end to the tradition of war. He demanded, that the German Government should set aside at least one percent of the national budget to secure peace through such peaceful means.

Through the enlivenment of the cosmic constitution in the collective consciousness of Germany not only Germany will become invincible but also

any German Government and the birth of any enemy will be prevented, Schiffgens explained. Quantum physics knows that phenomenon as Meissner-Effect, sociology calls it Maharishi-Effect.

Germany would witness through this programme a dramatic reduction of crime. The number of accidents and hospital admissions will drop drastically. This has been proven by hundreds of scientific researches during the last five decades. Also the economic climate would develop favorably.

Emanuel Schiffgens urged Germany not to lose any more time to apply this precious knowledge of Cosmic Intelligence in practical life. If the Government would not understand such an offer, it would become the duty of the German industry to create ideal living conditions in Germany. The biggest 5000 companies in Germany need only to finance 5000 peace angels and Germany would be invincible.
